The people of McDora are a sensible lot. They have a most excellent piece in Mr. Souerelle & Co, and they have the good sense to be elected by recognition.

An engine on the International railway, at Stepienaw station, N. S., exploded on Tuesday, killing three men instantly, and wounding several others.

We regret that Mr. A. Smith has a couple of months that threaten to grow up with boys. One of them was fined \$1.50 the other day for cruelty to a dog, punishing the animal when in harness.

A couple of farmers from near Alexander experimented in the police court here the other day for calling each other pet names. It cost one of them about \$4.

The St. Andrew's concert at Brandon last week proved very successful. Misses Low, Westie and Chubb, and Mr. B. B. B. of Brandon, rendered some excellent songs, which were well received.

A few weeks ago Winnipeg was going to build the R.R.V. on the point of the bayonet, and now they refuse to build it with a much less dangerous weapon—an axe of \$300,000 each. Can't the parties see through this?

A meeting of Mr. A. J. Souters' sons will be held in the hall on Friday evening next, to organize a St. Andrew's society. Doubtless there will be many references made to the glories of France, Wallonia, Scott and Burns, as well as to the smoothness of the Tarbo.

Mr. W. C. Hunter, law student, was receiving the congratulations of hosts of friends on the streets on Tuesday, on his first appointment to the bench, which he received a few months ago. He is still very pale and thin, but on the face of it, for a speedy recovery.

Mr. R. F. Edgar must be thinking of running for parliament, as he has been saying he is the best worth having on the market. His glossiness that Mr. A. J. Souters was a big bonus was given by the city, and up to his topknot is the way.

Mr. W. D. Matheson returned from the west last week, where he had been in business the past year. Our readers will remember he was some months ago unfortunate enough to have one of his legs broken while fighting a fire, and we regret he is not yet well over it. In fact it will be some months more before he is able to go around without crutches.

A no-brainer man of Ottawa had married the other day, and as a sort of housewifery, some of the boys tried an experiment with him. They went to his home while none was in, changed the light, and found the boy, and some say were going to experiment in law, if not in fathers. He, however, drew a knife in self defence, and made an ugly gash on one of the number. Powderlike like this must not be indulged.

Mr. A. McDonald, W. A. McDonald, J. C. Stroude, and others of the North West Central are on to the Riding Mountains, and other wooded parts of the country, adjacent to the N. W. C. line, on a search for timber for fences, ties, etc. Every step indicates business on the line. How new about the destruction that cooler, J. M. Robinson, has been piling up for the last few weeks, designed as an offer to the culture of the R.R.A.

Mr. J. A. Johnston, of this city, one of those sent to the east in charge of the Manitoba settlement by the Government, returned on Saturday, after a three months' absence. In a conversation with a MAIL man, he stated that trade in Ontario was in a bad shape. Many of the leading manufacturers and implement manufacturers were closing up. The farmers have had a bad season, and are in hard circumstances. Hundreds of young men are leaving for the western states, and a general feeling of uneasiness is abroad.

While they are talking of tall churning, here is an illustration of the genuine. Last week a thrasher, run by twelve horses, as a horse power, and owned by a few residents of Roseland, in four hours of steady run threshed 200 bushels of wheat for Mr. Hugh Trevelock, the wheat turning out fully forty bushels to the acre. A few days before that the same machine and the same family in a half day run of less than five hours, threshed 525 bushels for a neighbor. In Ontario these two lots would constitute the best part of a week's work, and the machine would have to make five or six moves to do it.

Reve Hallowell, of Woodworth, was in the city yesterday, he says that two changes were made in their Council, and all the nominees went in by acclamation.

Mr. J. C. Simpson is announced to arrive at Virden with another carload of horses about the 8th of December. Mr. Simpson is one of the oldest shippers in Manitoba, and has probably brought more horses to this country than any other stock agent. With the next carload he will have shipped 144 horses to this point this season, not including two carloads shipped to other points. This is a pretty good record's work.

As we have already said, we are confident Mr. Fowler will make an excellent mayor, impartial in his dealings, and doing justice to all; but this does not excuse what is an apparent injustice to Alh. Hughes. It is assumed by governments, the best methods of getting satisfaction out of the civil service is holding out the hope of promotions, and the same rule ought to prevail in councils. No one can find a particle of fault with the services of Alh. Hughes, excepting that he was unable to spend about 100 yards of all sides, walk over 200 yards of a distance. It takes a stroller, which Mr. Hughes does not profess to be, to do things like this. On the contrary many speak in the highest terms of his past services, and on the principle of promotions, it should have been offered to him. If the raters give the principle consideration, they will find it to work to their advantage.

The Northern Pacific and the Canadian Pacific, with the other Pacific roads, are said to have come to an arrangement with regard to transcontinental business. The next arrangement will probably be with respect to territory, and then Winnipeg will lose the support of the N. P. in its fight against the city, and will be helpless in its hands. From the foregoing is the conclusion the Winnipeg Sun has to offer the people of Brandon after doing its best to expose them into a million for the extraction of a "competing" road. It admits that since roads are built, at the expense of the people or others, who will consult their own interests as to combinations, and this is what the MAIL has all along contended.

Mr. Van Housen and party returned from the west on Sunday. On reaching Winnipeg he was interviewed by the board of trade and others as to how the wheat grades of the province. From what of the latter grade might be called extra Manitoba No. 1, hard, and the miller who wished to get wheat of that grade could do so. The Manitoba No. 1 North in they also asked should be made the price of the Manitoba No. 1 Northern, 25c. Van Housen replied that he had been studying the grain samples for some time, and was convinced of their inferiority. He was therefore willing to associate with the grain men of the province in trying to have them brought down to a more reasonable scale. He said that that point must be given the Governor-General to be given power to the standards should they be found inferior to the standards of the province. On his return east he would try to work the Minister of Indian Affairs, and ask him to have an order made to be passed fixing the standards at the prevailing rate mentioned by the disposition which he agreed would be about fair. Mr. Van Housen estimates the wheat crop of the Northwest this year at twelve million bushels.

PRICES FOR WOOD.

The Maiden Market prices for wood, good, with \$3 a cord, and good at \$2.50. In Winnipeg the consumer pays from \$5 to \$6.50 for sawing, worth at least \$1 a cord less than dry oak. If local freight rates on the C.P.R. rise within miles of reason, we might have some oak from Maiden. We could afford nearly \$20 a cord freight for the intervening 70 miles, but that is not enough to satisfy a monopoly.

Pechnoff, of the Winnipeg Commercial, gets on the foregoing as a chap of the C.P.R., and in defense of the sacred memory of the R.R.V. Will Jimmy Stein have the pluck to tell us how Winnipeg's connection with the Grand Trunk would lower the freight rate from Maiden to Winnipeg? Or better still, how Grand Trunk connection at any point would lower the freight rate of the C. P. R. at any point when the Grand Trunk positively refuses to haul wood at any rate? Come, Jimmy, down with your facts! (Ed. MAIL.)

THINGS HAVE CHANGED.

Edmonton Bulletin: The Calgary Tribune publishes a report that Deserails was captured by the United States authorities in Montana, and that an arrangement was made whereby he was to be delivered up to police at the line, but the arrangement was not carried out, owing to his attempting suicide. Deserails was captured in the States, Keola was captured in the States, and the McLeod murderers were captured in the States, after having eluded the ablest efforts of the Canadian authorities. Time was when criminals who could not be captured in the States found a ready judgment in Northwest look-ups. When a man who has eluded the Canadian police felt himself in no danger from United States marshals or deputies, these United States officials increased so greatly in efficiency while the efficiency of the Canadian police has been so greatly reduced, that the rate of increase in efficiency has been greater in the States than in Canada; and is the difference caused solely by a decrease in the efficiency in the police? Commissioner Henderson would do well to shed the light of his gigantic intellect on this point in his next annual report.

A jeweller is about commencing business at Oak Lake. His stock is on the way from Toronto, and is expected in a day or two. A shoemaker has also come to stay.

Mr. Owen, the manager of Dr. Barnard's Homes in Canada, and who is from Toronto, visited the Pipestone last week for the purpose of looking up the boys who are in this district. He was highly pleased with the settlement, from which he states he has numerous applications to supply in the spring.

A load of Montana ponies and British Columbia horses passed through Oak Lake last week, numbering 30, in charge of Richard Saep, on their way to Whitehead to be sold. They were for sale, the price ranging from \$35 to \$140 each.

Last week an extremely happy event happened at the residence of Mr. J. H. Crowl, two of his daughters being married on that occasion—Miss Ida being married to Mr. Alex. McGregor, and Miss Effie to Mr. John Cheshley, all of Napier. Still there is more to follow soon.

Talk about big crops! Mr. Wan, Wiloughby, of Denbigh, threshed 600 bushels of oats of seven acres, making it 85 bushels to the acre, and it was not big acres either. He also had 1,500 bushels of wheat off of 50 acres, where he was only expecting 1,000 bushels—an agreeable surprise.

M. V. LUBON'S SPECIFIC No. 8
CURES

Young, Middleaged, and old Men
Who are broken down from the effects of abuse will find No. 8 a radical cure for nervous debility, organic weakness, involuntary vital losses, etc.

Symptoms for which No. 8 should be used:
Want of energy, vertigo, want of purpose, dimness of sight, aversion to society, want of confidence, avoidance of conversation, desire for solitude, listlessness and inability to fix the attention on a particular subject, cowardice, depression of spirits, giddiness, loss of memory, excitability of temper, SPERMATORRHOEA, or loss of the seminal fluid—the result of SELF-ABUSE, or marital excess—impotency, emaciation, barrenness, pallidness of count, lachrymose feelings in females, trembling, melancholy, DISTURBED DREAMS, etc., are all symptoms of this TERRIBLE HABIT, oftentimes unceremoniously acquired in youth, the spring of evil forces having lost its tension, every function wastes in consequence. Scientific writers and the superintendents of insane asylums unite in ascribing to the effects of self-abuse the great majority of wasted lives which come under their notice. If you are incompetent for the arduous duties of business, incapacitated for the enjoyments of life, No. 8 offers an escape from the effects of early vice. If you are advanced in years, No. 8 will give you full vigor and strength. If you are broken down, physically and mentally, from early indiscretions, the result of ignorance and folly, send your address for Lubon's Treatise, entitled "CHRONIC SELF-ABUSE," an account of follies and vices. This book will be sent sealed and secure from observation upon receipt of two 10c stamps.
